GitHub: github.com/wahabx32 | LinkedIn: linkedin.com/in/wahabdev

SUMMARY

Passionate Full Stack Developer who crafts scalable web applications from pixel-perfect frontends to powerful backends. I turn complex problems into elegant digital experiences. Available for freelance, full-time, and remote work.

SKILLS

Frontend: HTML, CSS, JavaScript, React, Next.js, Tailwind CSS, Bootstrap

Backend: Node.js, Python

Database: MongoDB, SQL

Tools: Git, GitHub

PROJECTS

E-Commerce App (React, Node.js, MongoDB, Tailwind)

Full-stack shopping platform with product listings, cart system, user authentication, and seamless checkout. Live: ecommerce-app-np5r.vercel.app

SaaS Dashboard (React, Python, SQL, Tailwind)

Feature-rich analytics dashboard with data visualization, user management, and real-time metrics tracking. Live: saas-dashboard-mocha.vercel.app

Stone Paper Scissors Game (JavaScript, HTML, CSS)

Interactive browser game with smooth animations, AI opponent, score tracking, and satisfying micro-interactions. Live: game-bice-six-86.vercel.app

AVAILABILITY

Open to Freelance, Full-time, and Remote opportunities.
